PROFILE

Aspiring Full Stack Developer pursuing an MSc IT with a strong foundation in MERN stack development. Passionate about building scalable, user-centric web applications and solving complex problems. Seeking a MERN Stack Internship to contribute technical expertise and drive impactful project results.

SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+)

Backend: Node.js, Express.js, Django, Laravel

Databases: MongoDB, MySQL

Tools: GitHub, VS Code

PROJECTS

Movie Ticket Booking System (ScreenPass)

Developed a MEAN stack reservation platform to streamline cinema booking. Implemented secure user authentication and real-time seat availability tracking.

Vehicle Rental Booking System (SRP Rentals)

Built a MERN stack inventory management system. Integrated full CRUD operations and search filters to optimize vehicle tracking.

ERP (AxiomERP)

Designed a scalable MERN stack ERP solution to centralize enterprise operations. Optimized database architecture to support efficient reporting and resource planning.

CERTIFICATES

- Foundations of Cybersecurity (Google)
- Generative AI - Introduction and Applications (IBM)
- Interactivity with JavaScript (University of Michigan)
- Introduction to Relational Databases (IBM)
- Web and Mobile Testing with Selenium (University of Minnesota)
